Abdullah Qureshi

Full Stack Developer | Software Engineer | MERN | Next.js
| React.Js | React-Native | Node | HTML/CSS | TypeScript |
JavaScript | MongoDB | Web design | Wordpress
Islāmābād, Pakistan

Summary

Greetings! I'm a passionate Full Stack Developer and Software Engineer specializing in the MERN stack. My journey in web development spans turning ideas into visually appealing digital experiences. Proficient in HTML/CSS, JavaScript, Next.js, React.Js, Node.Js, , TypeScript, and React Native, I excel in crafting dynamic web applications with a keen eye for intuitive user interfaces and seamless WordPress integration.

With three years in the industry, I've contributed significantly to diverse projects, leveraging expertise in the MERN stack and cutting-edge technologies. Beyond developing and maintaining complex web applications, I've actively propelled team growth and success. Proficient in MongoDB and web design, I deliver scalable, high-quality solutions, staying ahead through continuous learning and adaptability.

Energized and ready for new challenges, I bring a strong foundation in full-stack development. Committed to excellence, I'm enthusiastic about delivering innovative solutions and driving excellence in web development. Whether it's coding dynamic features, designing interfaces, or optimizing performance, I'm poised to contribute expertise to create impactful digital experiences. Let's collaborate and transform ideas into reality!

Experience

Tachyon Techs
Full-stack Developer
February 2022 - Present (2 years 5 months)
Islāmābād, Pakistan

- Developed a multi-vendor e-commerce platform from the ground up, incorporating technologies such as React.js, Node.js, Express.js, and MongoDB to create a robust and scalable system.
- Integrated secure payment gateways, ensuring seamless and safe transactions for customers on the e-commerce platform.
- Worked on an art selling platform, enhancing user experience and implementing features to showcase and sell artwork, utilizing React.js, REST APIs, and MongoDB.
- Collaborated on a point-of-sale (POS) system, leveraging the MERN stack to create a user-friendly interface for managing sales, inventory, and customer data.
- Contributed to the development of a restaurant ordering system, streamlining the process of food ordering and delivery using React.js, Redux.js, Node.js, and SQL databases.
- Maintained a consistent record of delivering high-quality full-stack solutions, adapting to stakeholder requirements, and ensuring the success of various web-based projects.
- Demonstrated proficiency in Tailwind CSS for efficient and responsive front-end development.
- Leveraged Redux.js for state management, enabling efficient data handling and user interactions in complex applications.
- Utilized REST APIs to facilitate seamless communication between the front-end and back-end components of web applications.
- Employed SQL for database management, ensuring data integrity and efficient data retrieval.
- Collaborated with cross-functional teams to design, develop, and deploy web applications, fostering a cooperative and innovative work environment.
- Demonstrated a strong grasp of JavaScript, HTML, and CSS to create intuitive and visually appealing user interfaces.
- Built and maintained full-stack applications with React.js for front-end development and Node.js for server-side functionality.
- Leveraged MongoDB as a NoSQL database solution, optimizing data storage and retrieval for dynamic web applications.

Hello World Marketing

Full-stack Developer

March 2021 - Present (3 years 4 months)

Bhakkar, Punjab, Pakistan

Hello there! I'm a skilled Full Stack Developer and Software Engineer with a specialization in the MERN (MongoDB, Express.js, React, Node.js) stack. Over

the past two years, I've been actively involved in the dynamic world of web development, contributing to the success of the "Hello World" company.

My proficiency extends across a spectrum of technologies, including Next.js, React, Node, HTML/CSS, TypeScript, and JavaScript. I have successfully leveraged these skills to create cutting-edge, responsive web applications that seamlessly integrate with MongoDB and SQL databases, ensuring optimal performance and user satisfaction.

My passion for web design is evident in my work, where I prioritize crafting visually appealing and intuitive user interfaces. Additionally, I bring expertise in WordPress, enabling me to create and customize websites that meet both functional and aesthetic requirements.

Having spent two years at "Hello World," I have actively contributed to the company's tech initiatives, employing my skills to solve complex problems and drive innovation. I am committed to staying abreast of the latest industry trends and best practices, ensuring that my work aligns with the highest standards of quality and efficiency.

I am excited about the opportunity to bring my wealth of experience and dedication to excellence to new projects and continue making meaningful contributions to the world of web development. Let's build something incredible together

Fiverr

React Developer

April 2020 - Present (4 years 3 months)

- Successfully worked as a freelance React.js developer on Fiverr, delivering high-quality solutions to over 80 clients while maintaining a stellar 5-star rating.
- Developed custom React.js components and applications to meet clients' specific needs, resulting in highly satisfied customers and many repeat orders.
- Effectively communicated with clients to gather project requirements, clarify expectations, and provide regular project updates, ensuring a smooth and transparent collaboration process.
- Demonstrated expertise in solving complex technical challenges, optimizing code performance, and delivering projects on or ahead of schedule, leading to a strong reputation for reliability.

- Leveraged my strong problem-solving skills to troubleshoot and resolve issues promptly, earning clients' trust and positive feedback for exceptional customer service.
- Stayed updated with the latest React.js developments and best practices to consistently deliver modern, efficient, and cutting-edge solutions to clients.

Education

Virtual University of Pakistan

University of Engineering and Technology, Lahore
2018, Computer Science · (May 2021 - July 2025)

Punjab Group Of Colleges
Intermediate, ICS · (March 2018 - June 2020)
